

LinkedTech

Our company LinkedTech is a technology company specializing in the design and development of interactive business applications to help retailers to enhance their brand images and to increase their in-store sales. LinkedTech has extensive knowledge in retail industry, and has launched a number of business apps to multinational clients in China, HK, Macao, Singapore and the Philippines.

Our flagship platform iCan is a cloud-based platform for retailers. The HK government just approved to fund us to further develop it. We are also moving into HK Science Park this month. Enclosed please see a brief introduction of our company and iCan platform, along with a product video that we make together with Volkswagen.

We are looking for...

Job title: Interactive Developer

- The candidate should have proper training and skills on Leap Motion or Kinect.

Job title: Multimedia Designer

- The candidate should have ability to develop multimedia contents, such as videos.
